

Use Case: Start a game

Step	User's Action	System's Response
1	Launches the application	
2		Displays a dialogue window asking the user to choose a board style
3	Selects a style	
4		Displays a dialogue window asking the user to choose how many stones per pit to start with
5	Selects a number	
6		Game board is initialized with specified board style and number of starting stones per pit

Variation #1: Exit style selection

- 1.1 Start at step 2
- 1.2 Selects X
- 1.3 Application terminates

Variation #2: Choose a different style

- 2.1 Start at step 4
- 2.2 Selects X
- 2.3 Continue with step 2

Use Case: Make a Move

Step	User's Action	System's Response
1	Click a highlighted pit	
2		Distribute stones in the pit counter-clockwise, one at a time. Only the opposing player's store will be skipped. If the last stone lands in a empty pit, that stone and the stones in the opposite pit move to current player's store.
3		The confirm move and undo functions are enabled.

Variation #1: Free turn

- 1.1 Start at step 2
- 1.2 The last stone lands in the current player's own store
- 1.3 The undo function is enabled
- 1.4 Continue with step 1

Use Case: Confirm Move

Step	User's Action	System's Response
1	Complete make a move	
2	Choose to confirm move	
3		The current player's turn ends and the next player's turn begins. The pit highlight switched to the next player's pits. The player's remaining undo usages is rest.

Use Case: Undo Move

Step	User's Action	System's Response
1	Complete make a move	
2	Choose to undo move	
3		Moved stones from the last play return to their original pit. Undo count incremented. If count becomes three disable undo.
3		Continue with step 1

Variation #2: Undo limit reached

2.1 Complete step 1 (make a move)

2.2 Move is confirmed (step 3 of confirm move)

End Game

Step	User's Action	System's Response
1	Complete make a move	
2		No more stones remain in at least one side of pits. Any remaining stones on the other side is swept to the respective player's store.
3	Choose to confirm move	
4		A dialog window displays the winner.
5	Choose ok or X	
6		Game app terminates

Variation #1:

1.1 Start at step 2

1.2 Carry out undo turn

1.3 Continue with step 1

Rage Quit

Step	User's Action	System's Response
1	Press X on the window frame	
2		Game terminates
